Subject: Work Accomplished on June 11, 2014

Loren,

I started with a conference call with CH2MHill to discuss preparation for a webinar tomorrow with OPOG to discuss the Remedial Design Data Assessment report that we have asked them to produce. I then worked on LEHR, reviewing the proposed plan fact sheet and checking the descriptions against the figures to be sure we don't remove anything from the figures that is discussed in the text. I then had a conference call with CH2MHill and ORC to discuss additional questions before our call with OPOG tomorrow. Wayne Praskin had asked to talk with me about Omega so I briefed him and answered his questions of what is going on with OU 1. Finally, I spoke with James Ricks about Treasure Island and the history about why it was not listed on the NPL. James worked on the site during the time when it was considered for listing and has a lot of historical perspective.

Have a good evening.
